

Meeting Date	Action Point	Action	Target Date	Owner	Comments	Completion Date
07/12/2022	2022/02	Consider adding a further principle on top of the 4 existing ones, to say that FSS are positive about reviewing REUL, however this should be done in an appropriate timescale and have positive benefits		Geoff Ogle	14/03 - The word 'consider' will be removed from the last bullet to now read 'We will support change that supports business in line with better regulation principles, as part of the normal review of law'	14/03/2023
07/12/2022	2022/05	Consider the risk appetite for public health		ELT	14/03 - The Board noted that in the paper accompanying the Risk Appetite Statement it said that overall our Risk Appetite for Public Health is low; it was pointed out that protecting is different to improving.  On discussion, following the Board meeting, the Executive agreed that a change was not required to Risk Appetite Statement which explains that our Risk Appetite is low for risks in relation to protecting public health and high for developing new ways of improving public health. In the 2023/24 accompanying paper to the Board the text describing the overall Risk Appetite for Public Health will be updated to reflect this.	14/03/2023
07/12/2022	2022/06	Consider whether animal disease, ie avian flu, should be considered as a food security risk		Ian McWatt	21/03 - Advice from CVO and FSS Head Vet is that this could be a food security risk but not at present. Issue will be kept under review.	21/03/2023
